### Image Delivery:

Within 72 hours of the flight data acquisition, AG-RECON will provide a link to a website to securely download the processed imagery. Images are georeferenced and are delivered in a geopdf format. Images can be viewed in free Adobe Reader software which allows printing of unlimited copies of the images. AG-RECON provides access to free software that allows image viewing and roving map field navigation capabilities for computers, iPhones/iPads and Droid capable devices. Two versions of each image are delivered, a clean presentation copy of the image and a second which contains image interpretation notes, follow-up recommendations and embedded “how to” instruction documents.
